RI TRANSPARENCY REPORT

2020

Regime de Rentes du Mouvement Desjardins

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

OO 11.3b

If your organisation does not integrate ESG factors into investment decisions on your externally managed assets, explain why not.

Cash : There is a lot of turnover in the portfolio depending of the capital call/distribution received throughout the year, which translates in a lot of transactions. It would be impossible to track or follow ESG factors in the portfolio due to the high turnover of the assets and a large portion are SSA assets.

OO 11.4

Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection, appointment and monitoring processes.

Like in 2018, there is an ESG section in our investment due diligence and it is integrated to the presentation document submitted to the investment committee. We give an appreciation on each of the elements (ESG) with comments to support our appreciation. We also include a discussion with the manager to better understand how ESG is integrated to the different steps of the investment process and how it can influence their decisions. During the life of an investment, we follow quarterly any incident or improvement declared by the managers. Also, we monitor the percentage invested in clean energy and in non-clean energy of the total portfolio. Finally, we do not hesitate to question a manager on ESG considerations, by example, if we consider that a voting process is not appropriate or an investment is, to our point of view, not in the scope of the mandate, etc.

In 2019, the updated due diligence and monitoring questionnaires were developed. We also proceeded to send the initial due diligence questionnaire to all our managers. The monitoring questionnaire will be sent annually from now on.

SG 01.4

Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

The objective of the RRMD's investment policy is to secure the benefits prudently and effectively and to ensure that there will be sufficient assets to enable benefits to be paid as they fall due. Therefore, the objective is to obtain optimal return for the fund, while maintaining an appropriate level of risk, including ESG risk criteria, especially with respect to the volatility of contributions. Assets are divided into two portfolios: a matching portfolio that minimizes the variation in the gap between the RRMD assets and liabilities, and a performance portfolio that aims to generate sufficient returns to pay member pensions.

To generate stability and promote growth in the decades to come, the RRMD considers it is important to foster sustainable development. To that end, the RRMD promotes responsible investment which allows the plan, along with the Desjardins Group, to play a proactive role in regards to challenges in environmental, social and governance matters. The RRMD is primarily a manager of managers. In the due diligence process, which helps selected a manager, a section is devoted to the evaluation of the approach taken to implement ESG factors.

SG 01.5

Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]

Certain key elements covered in our investment principles target specific considerations in our responsible investment approach such as:

Prioritize renewable energies projects in direct infrastructure investments.

By the end of 2020, objective that the carbon footprint of all of its portfolios invested in corporate bonds in active management mandates and in public equities to be is less than 20% to that of the companies that make up the benchmarks specific to these mandates.

The most recent version of our policy was adopted by our internal investment management committee (Comité de gestion des placements) on March 4 2019. This policy will be reviewed by this committee at least every 3 years (maximum upon March 4 2022). The Policy was updated as of March 16 2020 to add specific exclusions for tobacco product and vaping and vaping products in most sector.

SG 03.1 Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

Yes

SG 03.2 Describe your policy on managing potential conflicts of interest in the investment process.

The Desjardins Group Retirement Committee (DGRC) adopted a code of conduct that applies to its members and investment committee. They must confirm their commitment to upholding the code or codes that apply to them every year. The DGRC ensures that the register of the interests and rights of those required to do so is maintained and updated accordingly.

The code of conduct includes a section on the management of conflicts of interest. DGRC members are required to disclose any potential conflict of interest so that the appropriate measures are taken to ensure management of the conflict in the real interest of the plan's members and beneficiaries. The measures can range from imposing limitations on the member's or employee's interventions, participation in discussion and decision-making, to asking the member or employee to abstain from discussion and decision-making. Also, the code of conduct addresses the concerns around gifts and gratuities.

SG 07.4 Additional information. [Optional]

The RRMD does not have dedicated responsible investment staff, but it works closely with dedicated responsible investment staff of other branches of Desjardins Group.

As mentioned, an external provider (ISS) has been hired to ensure that RRMD's voting rights policy is strictly enforced.

Employees in the organization have been identified to sit on ESG Committee of the Desjardins Group and within the Régime de rentes du Mouvement Desjardins, members of the organization are designated to take part of an ESG working group.

Also, Analysts, Portfolio Manager and Legal Director are all involved in monitoring the best practices and staying informed of trends and benchmarks.

The potential hire of a dedicated resource is actually under study by the RRMD.

LEA 12.1 Indicate how you typically make your (proxy) voting decisions.

Approach

- We use our own research or voting team and make voting decisions without the use of service providers.
- We hire service providers who make voting recommendations and/or provide research that we use to guide our voting decisions.
- We hire service providers who make voting decisions on our behalf, except in some pre-defined scenarios where we review and make voting decisions.

Based on

- The service-provider voting policy we sign off on
 - Our own voting policy
 - Our clients` requests or policies
 - Other (explain)
- We hire service providers who make voting decisions on our behalf.

LEA 12.2	Provide an overview of how you ensure that your agreed-upon voting policy is adhered to, giving details of your approach when exceptions to the policy are made.
-----------------	--

We investigate every occurrence where a vote has been casted against our policy. In the last year, this has happen only a couple time and was related to propositions, often on very specific issues from shareholders where our policy did not cover those specific issues.
